

CAPABILITY STATEMENT

www.dehumidify.com

Wallace Williams Corporation dba Hydrosorbent Dehumidifiers was established in 1976 and is dedicated to providing support services to government and commercial agencies and residential clients. Our specialized team of experts deliver low-cost, on time solutions to your moisture problems.

We provide rechargeable and single use desiccant dehumidifiers that are simple, safe, non-toxic and easy to use.. They are very effective in protecting all sorts of valuables from the damaging effects of mold, mildew, musty odors and rust.

CORE COMPETENCIES

We can provide these products to all Govt agencies:

- Re-chargeable Hydrosorbent Dehumidifiers – Silica Gel Units
- Hydrosorbent Dehumidifiers - Desiccant packets
- Humidity Indicator Cards
- Hydrosorbent Bulk Silica Gel Beads

ADVANTAGES

- Silica Gel Units Assembled in the USA
- Environmentally Conscious Company and Products
- Protection for Police and the Armed Forces Lockers, Safes and Armories
- Preservation for Museum Display Cases
- Protection & Rescue for sensitive electronics and devices from moisture damage
- Protection when Mothballing documents, files, equipment and weapons
